### TICKLISH POINTS IN PROPOSED LAWS

Central Committee Will Discuss Them With Legislators

### SUB-COMMITTEE RAISES IMPORTANT QUESTIONS

THOUGHT THAT ACT TO GIVE THE COUNTY WATER WORKS MAY VIOLATE ORGANIC ACT

The Republican Central Committee's executive committee at its meeting held last night dwelt mainly on the matter of legislation to be handled by the coming Legislature, more especially those which have been embodied in the Republican party platform. C. G. Hallenbyne, the chairman of the Central Committee's committee on legislation, reported that his committee had for some time past been working on drafting up bills to cover those points, but none of them had been completed as yet.

It was finally decided to ask all the Republican members of the coming Legislature who are now on Oahu to attend the next regular meeting of the Central Committee, which will take place next Monday evening at 7:30 o'clock, in order that the subject of future legislation could be thoroughly discussed.

The laws which the Republicans will recommend for passage by the Legislature can, generally speaking, be said to have narrowed themselves down to five main propositions. These are the liquor law, the primary law, the law making the income taxes of corporations made payable in the County in which they do their business; the law to pass the water works over to the Counties, and the law to establish a board of control in each County, which is to take some part in the running of the schools.

These are the five matters which

### GRAND JURY CRITICISES GAMBLING, POLICE AND SUNDAY LIQUOR SELLING

The final report of the Grand Jury was made to Judge De Bolt today and the Grand Jury was discharged with the thanks of the Court for the work it has accomplished.

The report contains nothing of a sensational nature. Considerable space is devoted to the subject of gambling, and some other evils, particularly the selling of liquor without meals on Sundays, are made the subject of criticism.

The Grand Jury filed into Court just about noon and the foreman stated that they were ready to report. The report was then submitted without reading, and was received by the Court and ordered filed.

Judge De Bolt took occasion to compliment the jury on the work it had accomplished, and particularly on having taken up the subject of gambling. For three or four years, he said, he had been trying to get Grand Jurors to go after this evil. The present Grand Jury had taken up the matter thoroughly, and the Judge said that he believed the results of their work would be of much benefit to the County.

Deputy Attorney General Prosser also thanked the Grand Jury for its diligence and efficiency. Foreman Clinton Hutchins stated that he wanted to thank the Court, the court officers and especially the Attorney General's department for their aid in the investigations conducted by the Grand Jury. The Attorney General's department, he said, had at all times stood behind the Grand Jury and had rendered every assistance possible.

In addition to its final report, the Grand Jury returned three new indictments and one no bill this morning.

### STACKABLE IS AFTER

OPTION ON BOAT FOR SPANIARDS

"We received a cablegram a few days ago from Stackable," said E. D. Tenney, of the Board of Immigration today. "It was dated from London, where he is busy trying to arrange for an option on a steamer, which could bring immigrants from Spain here. So far he has not succeeded. There seems to be a scarcity of vessels which can be chartered at present. The fact that Stackable is trying to get a steamer would seem to indicate that he intends to go to Spain to arrange for a shipload of laborers, although he has not as yet cabled us that he would. He will probably go there as soon as he has secured an option for a vessel, which can carry the immigrants, when he gets them."

The indictments and no bill are included in the report.

On motion of Prosser, G. Moreno, whom the Grand Jury failed to indict, was ordered discharged from custody. Those against whom true bills were found will probably be arraigned either tomorrow morning or Monday.

This Grand Jury, pursuant to instructions received from the court and acting along the lines of its duty, has investigated certain matters of public interest to the people of this circuit as follows:

#### GAMBLING

The Grand Jury has devoted much time to the investigation of this evil. It has found that among the Orientals it has been openly, extensively and notoriously carried on, apparently with little or no police interference. The Grand Jury is of the opinion that while private gambling is indulged in by other than Orientals no regularly established gambling games are in operation. The apprehension of this latter class is practically impossible and while the practice is deplorable, the

Grand Jury believes that the evil results therefrom are not so demoralizing as in cases where gambling is made an industry. In the opinion of this Grand Jury open public gambling cannot exist where the officers of the law do their duty. Evidence of this is found in the fact that after the investigations of this and the Grand Jury of January last, the larger gambling games were suspended and lotteries at least have not since resumed operations.

#### LIQUOR

The Grand Jury has confined its investigations to the sale of liquors on Sunday nights in the cafe attachments of saloons, with the following results: In some cases drinks are supplied to the public, both male and female, without any restrictions as to the purchase of meals or food in any form in the cafe attachments to several saloons there are small rooms divided by board partitions where, in many instances, females congregate for

### VOLCANO HOUSE AGENCY ESTABLISHED

Henry Waterhouse Trust Starts New Department For The Tourists

### JOHN M. PALMER IN CHARGE OF PROMOTION WORK

ALL LOCAL BUSINESS OF THE VOLCANO HOUSE TO BE DONE THROUGH AGENTS—OTHER TOURIST PLANS

The agency of the Volcano House has been taken over by the Henry Waterhouse Trust Co., Ltd. From now on all matters pertaining to the popular Kilauea hostelry will be conducted through the agency here.

This new department of the trust company is to be in charge of John M. Palmer who until recently has resided on Kauai. Mr. Palmer is well known throughout the islands and he knows the prettiest spots and how to get there.

In connection with this agency Mr. Palmer will develop an Information Bureau which will include what anyone and everyone wants to know of the islands and how to get there with the least difficulty and expense.

Mr. Palmer will make it his business to meet personally as many of the people who visit Honolulu as possible. He will have a large number of photographs of the beautiful places throughout the islands. He will include Kauai and Maui as well as all districts of Hawaii. It will be the purpose of the Information Bureau to get in touch with the visitors and learning what they are after, supply it with the least trouble to the traveler.

The Henry Waterhouse Trust people will through Mr. Palmer endeavor to make it impossible for a person to have been in the islands and go away without having been fully informed of every place of interest the country affords.

The work will be supplementary to the Promotion Committee, and is just what the workers of that important branch of local enterprise want. Mr. Palmer has of course many details of organization to attend to just at present but the office will be in full swing when the heavy end of the tourist season is on.

### Clothes as a Help In Life

To be correctly clothed will make friends and unlock doors everywhere. The time is past when education was an all-sufficient passport and a guarantee of at least moderate prosperity. Nowadays a man is measured by his clothes as much as by his knowledge. Society and business life demands of its members the observance of a certain code in clothes.  
Good taste counts for more than money in this matter, and good taste is always assured in Correct Clothes for Men, bearing the label of ALFRED BENJAMIN & CO.
